## REMOVAL INSTRUCTIONS

The adhesive tape is semi-permanent and removable.

To remove the Mini Wheel Stop, use a lever such as a “jimmy bar”, claw hammer, heavy duty chisel, shovel or crow bar to prise the Mini Wheel Stop from the garage floor.

It is best to prise it from one end.

Remove adhesive tape and any remaining adhesive on both the Mini Wheel Stop and the concrete floor with acetone or other suitable solvent. Please follow the supplier’s instructions when using any solvents.

Replacement double-sided adhesive tape may be purchased from the Mini Wheel Stop shop.

How to uninstall video link below:
