

Polymer mineral composite
Durable - Never rot or rust
Termite proof
14 x 7mm pre-drilled holes
Fully insulated - No insulators needed
Long lifespan - UV stable
Drivable point
Fast installation
Sturdy & lightweight
100% recycled plastic
Weatherproof
Maintenance free
Recyclable at end of life
Australian Made & Owned

Square Pickets are made in Australia from 100% recycled plastic and a mineral blend for increased strength. They are sturdy, drivable, durable & fully insulated. Suitable for a wide range of applications, similar to steel star pickets

- Long lasting – will not rot or rust
- Termite proof and bacteria resistant
- Made from a polymer mineral composite for increased strength
- Fully insulated for easy electrification of any or all wires– no insulators needed!
- 14 x 7mm pre-drilled holes for easy installation
- UV stabilised for long outdoor life
- Waterproof – ideal for swampy, coastal, wet or flood-prone areas
- Drivable point for quick installation with a manual or petrol post driver *
- Low maintenance – never need painting
- Suitable for acidic, alkaline or saline soils
- Easy to work with– can be screwed, drilled or sawed like timber
- Affordable, with excellent lifetime value
- Made in Australia from 100% recycled plastics
- Ideal for creating mesh tree guards around newly planted trees
- Supports many types of wire, silt fence, barrier mesh or wire mesh
- Perfect to combine with our larger PLUS Post or Droppers for a smart, uniform fence with no untidy clips or insulators
- Recyclable at end of life

Specifications:

- Square 38mm (w) x 38mm (d) in two standard lengths: 1650mm (2.3kg) & 1800mm (2.5kg) approx
- Pre-drilled holes: 14 x 7mm holes
- Colour: Black

Options:

- Pre-drilled top slot for barbed wire or plain wire

WARNINGS: Product is not suitable for use as a strainer or end post. Unstrapped pickets lying flat in the sun may bow. Keep the pack strapped until using and re-strap unused pickets immediately with ratchet straps or similar. Store pickets inside or out of the sun if possible. Cover if left outdoors.

As Plastic Forests Pty Ltd has no control over fabrication, installation design, installation workmanship, accessory materials or conditions of application, Plastic Forests Pty Ltd does not warrant the performance or results of any installation or use of the product or any final product into which the product may be incorporated by the purchaser and/or user. The purchaser and/or user should perform its own tests to determine the suitability and fitness of the product or the particular purpose desired in any given situation. * Depending on soil conditions - cannot be driven into heavily compacted or rocky ground. 24092023
